ture. Salute the autocrat of the breakfast table.
But, you say, I can't eat ham and
they don't agree. This is the sort
of prejudice a host of people have
against many of the most tempting
dishes, people who have just as much
trouble with a glass of milk or oatmeal
as they do with fried onlone. Try cating what you like and follow your meal
with a Stuart's Dyspepsia Tablet to relieve possible gassiness, rumblings,
drowsiness, sour risings, heartburn,
water brash, and the "stuffy" feeting after eating. These tablets contain harmless ingredients that act with
an alkaline effect just as the stomach
does when it is perfectly normal.
Many physicians prescribe them for
indigestion, dyspepsia and other diges
tive disorders, as they are sold in all
drug stores everywhere in the United
States and Canada. The druggist recommends them as among his steady
staples for they really give relief and
are highly appreciated.
